## **Independent Auditor's Report**

To The Members of Max Square Limited (Formerly Known as Northern Propmart Solutions Limited)

## Report on Audit of Financial Statements

## **Opinion**

We have audited the accompanying Financial Statements of M/s Max Square Limited (Formerly known as Northern Propmart Solutions Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2022, and the Statement of Profit and Loss (including other comprehensive income), Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the Financial Statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, of its loss and total comprehensive income (comprising loss and other comprehensive income), changes in equity and its cash flows for the year then ended on that date.

## Basis for opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the director's report, but does not include the financial statements and our auditor's report thereon. The director's report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial

statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the director's report, If we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate action as applicable under the relevant laws and regulations.

# Responsibilities of management and those charged with governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Financial Statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the company's financial reporting process.

## Auditor's responsibilities for the audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the Financial Statements,

whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate Internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of use of the going concern basis of accounting
  and, based on the audit evidence obtained, whether a material uncertainty exists
  related to events or conditions that may cast significant doubt on the Company's
  ability to continue as a going concern. If we conclude that a material uncertainty
  exists, we are required to draw attention in our auditor's report to the related
  disclosures in the Financial Statements or, if such disclosures are inadequate, to
  modify our opinion. Our conclusions are based on the audit evidence obtained up to
  the date of our auditor's report. However, future events or conditions may cause
  the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

## Report on Other Legal and Regulatory Requirements

Chartered

- 1. As required by the Companies (Auditor's Report) Order, 2020 (the "Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
- 2. As required by section 143(3) of the Act, we report, to the extent applicable, that:

- a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- In our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
- c. The Balance Sheet, Statement of Profit and Loss including Other Comprehensive Income, the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account;
- d. In our opinion, the aforesaid Financial Statements comply with the Accounting Standards specified under Section 133 of the Act read with Companies (Indian Accounting Standards) rules, 2015 as amended.
- e. On the basis of the written representations received from the directors as on 31st March, 2022, and taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2022 from being appointed as a director in terms of Section 164 (2) of the Act;
- f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B"; and
- g. The provisions of Section 197 read with Schedule V to the Act are not applicable to the company for the year ended 31st March, 2022.
- h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
  - The Company does not have any pending litigations which would impact its financial position;
  - The Company did not have any long-term contracts including derivatives contracts for which there were any material foreseeable losses;
  - There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
  - (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that

Charleted

the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiarles") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiarles;

- (b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or. In the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or Indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

(v) The Company has not declared/paid any dividend during the year and hence provisions of section 123 of the Act is not applicable.

New Delhi, dated the

Annexure "A" to the Independent Auditors' Report
The Annexure referred to In paragraph 1 under "Report on Other Legal and
Regulatory Requirement" section of our Independent Auditors' Report to the
members of the Company on the financial statements for the year ended
March 31, 2022, we report that:

- 1. In respect of the Company's Property, Plant and Equipment and Intangible Assets:
  - (a) The Company does not have any Property, Plant & Equipment or intangible assets. Accordingly, the provisions of clause 3(i) of the Order are not applicable.
  - (b) According to the information and explanations given by the management, there are no immovable properties, included in property, plant and equipment of the company and accordingly, the requirements under paragraph 3(i)(c) of the Order are not applicable to the Company and hence not commented upon.
  - (c) No proceedings have been initiated during the year or are pending against the Company as at March 31, 2022 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
- 2. The Company does not have any inventory at the period end. Accordingly, the provisions of clause 3(ii) are not applicable to the company and hence not commented upon.
- 3. In our opinion and according to the information and explanations given to us, the Company has not made any investments in, provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the provisions of clause 3(iii)(a), 3(iii)(b), 3(iii)(c), 3(iii)(d), 3(iii)(e) and 3(iii)(f) are not applicable to the company and hence not commented upon.
- 4. In our opinion and according to the information and explanations given to us, there are no loans, investments, guarantees and securities given in respect of which provisions of section 185 and 186 of the Companies Act, 2013 are applicable to the company. Accordingly, the provisions of clause 3(iv) of the Order is not applicable.
- 5. According to the information and explanation given to us, the Company has not accepted any deposits during the year.
- 6. According to the information and explanation given to us, we are informed that the maintenance of cost records has not been prescribed by the Central Government under sub-section (1) of section 148 of the Companies Act, 2013.
- 7. According to the information and explanation given to us, in respect of statutory dues:

Accountants

a) According to information and explanations given to us and on the basis of our examination of the books of account, and records, the Company has been generally regular in depositing undisputed statutory dues including Provident Fund, Employees State Insurance, Income-Tax, Goods and Service Tax, Duty of Customs, Cesa and any other statutory dues, as applicable with the appropriate authorities

According to the information and explanations given to us, no undisputed amounts payable in respect of the above were in arrears as at March 31, 2022 for a period of more than six months from the date on when they become payable.

- b) According to the information and explanations given to us and the records of the Company, there is no due in respect of income tax, goods and service tax and duty of customs as on 31st March, 2022 which have not been deposited on account of disputes.
- 8. According to the information and explanations given to us and based on our examination of the records of the Company, there is no transaction which is not recorded in the books of accounts and have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).
- 9. (a) According to the information and explanations give to us and based on our examination of the records of the Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender during the year.
  - (b) The Company has not been declared wilful defaulter by any bank or financial institution orgovernment or any government authority.
  - (c) According to the Information and explanations given to us and on the basis of the books and records examined by us, the term loans taken during the year have been applied for the purposes for which those were obtained.
  - (d) The Company has not raised any funds on short term basis. Hence reporting under clause 3(ix)(d) of the Order is not applicable.
  - (e) On an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries.
  - (f) The Company has not raised any loans during the year and hence reporting on clause 3(ix)(f) of the Order is not applicable.
- 10.(a) In our opinion and according to the information and explanations given by the management, the Company has not raised money by way of initial public offer or further public offer (including debt instruments) and term loan during the year. Accordingly, clause 3(x) of the Order is not applicable.
  - (b) The company has not made any preferential allotment or placement of shares during the year.
- 11. (a) No fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
  - (b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report 143 has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the

- (c) According to the information and explanations given to us, there were no whistle blower complaints received during the year by the Company.
- 12. As the Company is not a Nidhi Company, accordingly clause (xii) of paragraph 3 of the order is not applicable to the Company.
- 13. In our opinion and according to the information and explanations given to us, the Company is in compliance with Section 177 and 188 of the Companies Act, 2013 where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the financial statements as required by the applicable accounting standards.
- 14. (a) According to the information and explanations given by the management, the company has an internal audit system commensurate with the size and nature of its business.
- (b) The reports of the Internal Auditors for the year under audit were considered by us.
- 15. According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into non-cash transactions with directors or persons connected with him. Accordingly, clause (xv) of the paragraph 3 of the Order is not applicable.
- 16. (a) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act 1934. Hence, reporting under clause 3(xvi)(a) of the Order is not applicable.
  - (b) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act 1934. Hence, reporting under clause 3(xvi)(b) of the Order is not applicable.
  - (c) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act 1934. Hence, reporting under clause 3(xvi)(c) of the Order is not applicable.
  - (d) According to the information and explanation given to us by the management, the Group has one CIC which is registered with the Reserve Bank of India.
- 17. According to the information and explanations given to us and based on our examination of the records of the Company, the company has incurred cash losses in the year under audit and in the immediately preceding financial year.
- 18. There has been no change in the statutory auditors of the Company during the year. Accordingly, the provisions of clause 3(xvIII) are not applicable to the company and hence not commented upon.
- 19. According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, our knowledge of the plans of the Board of Directors and management and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we wither give any guarantee nor any assurance that all liabilities falling due within a

Accountants/

period of one year from the balance sheet date, will get discharged by the company as and when they fall due.  $\,$ 

20. The provisions of section 135 of the companies Act 2013 does not apply to the Company. Accordingly the provisions of clause 3(xx) of the Order are not applicable to the Company and hence not commented upon.

New Delhi; dated the

"ANNEXURE B" TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON-THE FINANCIAL STATEMENTS OF MAX SQUARE LIMITED (FORMERLY KNOWN AS NORTHERN PROPMART SOLUTIONS LIMITED)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of M/s Max Square Limited (Formerly known as Northern Propmart Solutions Limited ("the Company") as of March 31, 2022 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

## Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the Internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

## **Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate Internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of Internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit primer han the Company's internal financial controls system over financial reporting.

bullanie

## Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

## Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the Internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

## 1 Corporate Information

Max Sqaure Limited (Formerly known as Northern Propriant Solutions Limited), (the Company) is a company registered under Companies Act, 2013 and incorporated on 24th June 2019. The Company engaged in the business of Real Estates development. Registered office of the Company is located at Max Towers, L-12, C-001/A/I Sector-16B Noida Gautam Buddha Nagar UP 201301, India.

The Trickman districtment of the properties of the property of the street of the street, and t

### 2 Significant accounting policies

## 2.1 Basis of preparation

These separate financial statement of the Company have been prepared in accordance with Indian Accounting Standards (IND AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of division II of Schedule III to the Companies Act 2013 (Ind AS Compliant Schedule III), as applicable to these separate financial statement.

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value

(i) Certain financial assets and liabilities that are measured at fair value

Financial Statement are presented in INR and all values are rounded to nearest Lacs (INR 00,000) except when otherwise stated

## 2.2 Summary of algnificant accounting policies

### a. Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is treated as current when it is:

- (i) Expected to be realized or intended to be sold or consumed in normal operating cycle
- (ii) Held primarily for the purpose of trading
- (iii) Expected to be realized within twelve months after the reporting period, or
- (iv) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- (i) It is expected to be settled in normal operating cycle
- (ii) It is held primarily for the purpose of trading
- (iii) It is due to settled within twelve months after the reporting period, or
- (iv) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

## b. Property, Plant and Equipment

Under the previous GAAP (Indian GAAP), all assets were carried in the Balance Sheet at cost, less accumulated depreciation and accumulated impairment losses, if any. On the date of transition to IND AS, the Company has applied exemption of Ind AS 101 to continue carrying value of all property, plant and equipment as at the date of transition as its deemed cost.

Property, Plant and equipment including capital work in progress are stated at cost, less accumulated depreciation and accumulated impairment losses, if any. The cost comprises of purchase price, taxes, duties, freight and other incidental expenses directly attributable and related to acquisition and installation of the concerned assets and are further adjusted by the amount of CENVAT credit and VAT credit availed wherever applicable. When significant parts of plant and squipment are required to be replaced at intervals, the Company depreciates them separately based on their respective useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognized

The company identifies and determines cost of each component/ part of the asset separately, if the component/ part has a cost which is significant to the total cost of the asset and has useful life that is materially different from that of the remaining asset.

Capital work- in- progress includes cost of property, plant and equipment under installation / under development as at the balance sheet date.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Depreciation on property, plant and equipment is provided on prorata basis on straight-line method using the useful lives of the assets estimated by management and in the

Assets Useful lives estimated by the management (years)

Furniture and fixtures 10 Years
Office equipment 5 Years
Computers 3 Years
Vehicles 8 Years

## c. Investment property

### Recognition and initial measurement

Investment properties are proporties held to earn rentals or for capital appreciation or both. Investment properties are measured initially at their cost of acquisition including transaction costs. The cost comprises purchase price, borrowing cost, if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. When significant parts of the investment property are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives.

Property held under lease is classified as investment property when it is held to earn pentals or for capital appreciation or for both trather than for sale in the ordinary course of

## Intengible aggets

Intengible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intengible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Internally generated intangibles, excluding capitalized development cost, are not capitalized and the related expenditure is reflected. in statement of Profit and Loss in the period in which the expenditure is incurred. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use

The useful lives of intangible assets are assessed as either finite or indefinite. Intangible assets with finite lives are amortized over their useful economic lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life is reviewed at least at the and of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the statement of profit and loss in the expense category consistent with the function of the intangible assets.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from disposal of the intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the assets are disposed off.

Intensible exsets with finite useful life are amortized on a straight line basis over their estimated useful life of 3-6 years.

### Impairment of non financial assets

The Company assessed at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's, recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) net fair value less cost of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net fair value less cost of disposal, recent market transactions are taken into account, if available If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Company bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Company's cash-generating units to which the individual assets are allocated. These budgets and forecast calculations are generally covering a period of five years. For the remaining economic life of the asset or cash-generating unit (CGU), a long term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Company extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In this case, the growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used.

After impairment, depreciation is provide on the revised carrying amount of the asset over its remaining economic life.

An assessments is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Company estimates the asset's or cash-generating unit's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the esset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit and loss unless the asset is carried at a revalued amount, in which case the reversal is treated as a revaluation increase

## Financial Instruments

A funite all mutations is any contract place groups are not on this part of an area of a funite and a funite

## (i) Financial assets

The Company classified its financial assets in the following measurement categories :-

- Those to be measured subsequently at fair value (either through, other comprehensive income or through profit & loss)
- Those measured at amortized cost

Initial recognition

measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Compa urchase or sell the asset.

0

eshy

## Subsequent messurement

For purposes of subsequent measurement, financial assets are classified in four categor

- (i) Debt instruments at amortized cost
- (ii) Debt instruments and equity instruments at fair value through profit or loss (FVTPL)

## Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

- (i) Business model test: The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows (rather than to sell the instrument prior to its contractual maturity to released its fair value change), and
- (ii) Cash flow characteristics test: Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. EIR is the rate that exactly discount the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate to the gross carrying amount of financial assets. When calculating the effective interest rate the company estimate the expected cash flow by considering all contractual terms of the financial instruments. The EIR amortization is included in finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss. This category generally applies to trade and other receivables.

## Debt Instruments at Fair value through profit and loss

FVTPL is a residual category for financial instruments. Any financial instrument, which does not meet the criteria for amortized cost or FVTOC1, is classified as at FVTPL. A gain or loss on a Debt instrument that is subsequently measured at FVTPL and is not a part of a hedging relationship is recognized in statement of profit or loss and presented net in the statement of profit and loss within other gains or losses in the period in which it arises. Interest income from these Debt instruments is included in other income.

### Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognized (i.e., ramoved from the Company's -the rights to receive cash flows from the asset have expired, or

-the Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass through" arrangement and either;

- (a) the Company has transferred the rights to receive cash flows from the financial assets or
- (b) the Company has retained the contractual right to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all the risks and rewards of the ownership of the financial assets. In such cases, the financial asset is derecognized. Where the entity has not transferred substantially all the risks and rewards of the ownership of the financial assets, the financial asset is not derecognized.

Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset, the financial asset is derecognized if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

## Inventories

breams exploration completed until he sale and property make contraction (WAX or property).

(A) Complicated Consolid amountary on valuate at lower of more and new contrastive status. Cross is determined by including cost of fixed materials, not seen and retript exceedings.

(B) Work in progress is valued at cost. Cass compress value of land angualing destination in Section 1995 and other matter and other matter to projects under construction.

## Impairment of financial assets

In accordance with IND AS 109, the Company applies expected credit losses (ECL) model for measurement and recognition of impairment loss on the following financial asset

- Financial assets measured at amortised cost;
- Financial assets measured at fair value through other comprehensive income (FVTOCI);

The Company follows "simplified approach" for recognition of impairment loss allowance on trade receivables. Under the simplified approach, the Company does not track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition, the Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates over the expected life of trade receivable and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward looking estimates are analyzed.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used 1f, in subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the Company reverts to recognizing impairment loss allowance based on 12-months ECL.

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of trade receivables. The provision metrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

## Reclassification of financial assets

The Company determines classification of financial assets and liabilities on initial recognition. After mitial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognized gains, losses (including impairment gains or losses) or interest

(ii) Financial Ilabilities

## Initial recognition and

Financial liabilities are classified at initial recognition as financial habilities at fair value through profit or loss, loans and borrowings, and payables, net of directly attributable transaction costs. The Company financial liabilities include loans and borrowings including bank overdraft, trade payable, trade deposits, retention money and other payables.

The measurement of financial habilities depends on their classification, as described below:

### Trade Payables

These amounts represents liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 90 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at fair value and subsequently measured at amortised cost using EIR method.

## Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognised in the statement of profit and loss. Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in IND AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognised in OCI. These gains/ loss are not subsequently transferred to profit and loss. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss. The Company has not designated any financial liability as at fair value

### Loans and borrowings

Borrowings are initially recognised at fair value, net of transaction cost incurred. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortization process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of IND AS 109 and the amount recognised less cumulative amortization

## Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or medication is treated as the derecognition of the original liability and the recognition of a new hability. The difference in the respective carrying amounts is recognised in the statement of profit and loss

## Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

## Investment in Subsidiaries

The investment in subsidiaries are carried at cost as per IND AS 27. Investment carried at cost is tested for impairment as per IND AS 36. An investor, regardless of the nature of On disposal of investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

## Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognized:

- (i) Revenue is recognised over time if either of the following conditions is met:
- a. Buyers take all the benefits of the property as real estate developers construct the property
- b. Buyers obtain physical possession of the property
- c. The property unit to be delivered is specified in the contract and real estate entity does not have an alternative use of the unit; the buyer does not have the discretion to in case none of these conditions is met, revenue would be recognised at a point in time when the control of the property is passed on to the customer.
- (II) Revenue from shared services

Revenue from shared services is recognized over the period of contract, as and when services are rendered.

(iii) Revenue from project management consultancy / secondment

Revenue from project management consultancy / secondment is recognized as per the terms of the agreement on the basis of services rendered

(iv) Guin on sale of investments

On disposal of an investment, the difference between the carrying amount and net disposal proceeds is recognised to the profit and loss statement.

(v) Interest and direct expenditure attributable to specific projects are capitalized in the cost of project, other interest and indirect costs are treated as 'Period Cost' and charged

(vi) All other incomes and expenditures are accounted for on accrual basis

## Current income tox

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities in accordance with the Income Tax Act, 1961 and the income computation and disclosure standards (ICDS) enacted in India by using tax rates and tax laws that are enacted or substantively enacted, at the reporting

Current income tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other eshin ome or in equity). Current tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity. Management periodically in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropri

### Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date,

Deferred tax liabilities are recognised for all taxable temporary differences

Deferred tax easets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax easets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized

The carrying amount of deferred tax assets is reviswed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available. Deferred tax assets and Habilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the Hability is settled, based on tax rates (and Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Deferred

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate

The Company recognizes MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified

## Borrowing costs

Borrowing costs directly stiributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use

### k. Leases

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease

## Company as a lessee

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Finance leases are capitalized at the commencement of the lease at the inception date at fair value of the leased property or, if lower, at the present value of the minimum lease A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, Operating lease payments are recognized as an expense in the statement of profit and loss on a straight-line basis over the lease term unless the payment are structured to Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising

### Provision and Contingent liabilities

### Provision

A provision is recognized when the Company has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying Continuous Habilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future Provisions, contingent liabilities, contingent assets and commitments are reviewed at each balance sheet date.

## m. Retirement and other employee benefits

## Provident fund

The Company contributed to employees provident fund benefits through recognised provident fund, contribution to fund has been on monthly basis for employees and employer above.

## Gratulty

Gratuity liability is a defined benefit obligation and is provided for on the basis of an actuarial valuation on projected unit credit method made at the end of each financial year.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the

Net interest is calculated by applying the discount rate to the net defined benefit (liabilities/assets). The Company recognized the following changes in the net defined benefit

(i) Service cost comprising current service cost, past service cost, gain of loss on curtailments and non routine settlements.

(ii) Net interest expenses or income

## Compensated Absences

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit . The Company measures the expected cost of such absences as the additional amount that it it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year end .Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred. The Company presents the leave as a current liability in the balance abset, to the extent it does not have an unconditional right to defer its settlement for 12 months after the reporting date. Where Company has the unconditional legal and contractual right to defer the settlement for a period 12

## Short-term obligation

Liabilities for wages and salaries, including non monetary benefits that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are recognized in respect of employee service upto the end of the reporting period and are measured at the amount expected to be paid when the Habilities are restrict, the liabilities are presented as current employee benefit obligations in the balance sheet.

## Long term incentive plan

Employees of the Company receives defined incentive, whereby employees render services for a specified period. Long term incentive is measured on accrual basis over the period as per the terms of contract.

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to

### m. Earning per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares

### Foreign currencies ъ.

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'), the Foreign currency transactions are recorded on initial recognition in the functional currency, using the exchange rate prevailing at the date of transaction.

Measurement of foreign currency items at the balance sheet date

Foreign currency monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Nonmonetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

Exchange differences arising on settlement or translation of monetary items are recognized as income or expense in the period in which they arise with the exception of exchange differences on gain or loss arising on translation of non-monetary items measured at fair value which is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognized in OCI or profit or loss are also recognized in OCI or profit or

## Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair. (i) In the principal market for the asset or liability, or

(ii) In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on (i) Level I - Quoted (unadjusted) market prices in active markets for identical assets or liabilities

(ii) Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

(iii) Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Disclosures for valuation methords, significant estimates and assumptions
- Quantitative disclosures of fair value measurement hierarchy
- Investment in unquoted equity shares
- Financial instruments ( including those carried at amortised cost)

## Recent accounting pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, as below:

Property Plant and equipment - The amendment clarifies that excess of net sale proceeds of items produced over the cost of testing, if any, shall not be recognized in the profit or loss but deducted from the directly attributable costs considered as part of cost of an item of property, plant, and equipment. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022. The Company has evaluated the amendment and there is no impact on its standalone financial statements.

Provisions, Contingent Liabilities and Contingent Assets - The amendment specifies that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labor, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract). The effective date for adoption of this amendment is annual periods beginning on or after April I, 2022, although early adoption is parmitted. The Company has evaluated the amendment and the impact is not expected to be material.

## Significant accounting judgements, estimates and assumptions

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts (a) Determining the lease term of contracts with renewal and termination options - Company as lesses

The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised

The Company has several lease contracts that include extension and termination options. The Company applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customisation to the leased

The Company included the renewal period as part of the lease term for leases of plant and machinery with shorter non-cancellable period (i.e., three to five years). The Company typically exercises its option to renew for these leases because there will be a significant negative effect on production if a replacement asset is not readily available. The renewal periods for leases of plant and machinery with longer non-cancellable periods (i.e., 10 to 15 years) are not included as part of the lease term as these are not reasonably certain to be exercised. Furthermore, the periods covered by termination are included as part of the lease term only when they are reasonably certain not to be exercised nkeshy

Property lease classification - Company as le

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to

### (a) Defined benefit plans

The cost of defined benefit plans (i.e. Gratuity benefit) is determined using actuarial valuations. An actuarial valuation involves making various assumptions which may differ

## (b) Fair value measurement of financial instruments

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. The Company use Net asset value for valuation of investment

The impairment provisions of financial assets are based on assumptions about risk of default and expected loss rates, the Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

## (d) Impairment of non-Financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An assets recoverable amount is the higher of an asset's CGU'S fair value less cost of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or Company's of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into are sufficient can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, or other fair value in the contract of the contra

## 20 Segment reporting

The Company is a one segment company in the business of real estates development. All its operations are located in India, accordingly, the Company views these activities as one business segment, there are no additional disclosures to be provided in terms of Ind AS 108 on 'Segment Reporting'.

## 21 Pinancial instruments

The comparison of carrying value and fair value of financial instruments by categories that are not measured at fair value are as follows:

Category	Carried	au Malua		Rs. in Lees
	March 31, 2022 March 31, 2021			r Value
	March 31, 2022	March 31, 2021	March 31, 202	2 March 31, 2021
1) Financial asset at amortized cost				
Non current & current				
Other financial assets	194.67	24.92	104.44	
Trade receivables	171.07	0.01	194.67	
Cash and cash equivalents (incl. other Bank balances)	652.34	668.39	562.24	0.01
,	032.5	008.39	652,34	668.39
2) Financial liabilities at amortized cost				
Non current & current				
Borrowings	19,866.32	9,946,96	19.866.32	0.046.06
Other financial liabilities	2,948,49	1,292,52	2.948.49	
Trade payables	53.72	189.99	_,	-,
	33.72	107.77	53.72	189,99

The Company assessed that trade receivables, cash and cash equivalents, other bank balances, loans and advances to related parties, interest receivable, trade payables, capital creditors are considered to be the same as their fair values, due to their short term nature.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

Long-term fixed-rate and variable-rate receivables/borrowings are evaluated by the Company based on parameters such as interest rates, specific country risk factors, individual creditworthiness of the customer and the risk characteristics of the financed project. Based on this evaluation, allowances are taken into account for the expected credit losses of these receivables.

The fair value of unquoted instruments, loans from banks and other financial liabilities as well as other noncurrent financial liabilities are estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities. The valuation requires management to use observable and unobservable inputs in the model, of which the significant observable and unobservable inputs are disclosed in the table below. Management regularly assesses a range of reasonably possible alternatives for those significant observable and unobservable inputs and determines their impact on the total fair value.

The fair values of the Company's interest-bearing borrowings and other non-current financial liabilities are determined by using DCF method using discount rate that reflects the issuer's borrowing rate as at the end of the reporting period.

## Fair value hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities

Level 2: other techniques for which all inputs that have a significant effect on the recorded fair value are observable, either directly or indirectly

Level 3: techniques that use inputs that have a significant effect on the recorded fair value that are not based on observable market data
